

What Junior Achievement Classroom Consultants are Saying about JA:

My experience with the 4th graders at Cornerstone was terrific. We studied the Regions JA material and the students were very enthusiastic and eager to participate every time. I think JA's curriculum is very well put together which makes it enjoyable to teach.

I did administer both the Pre and Post tests and *did* find marked improvement with *nearly* every student concerning the Post test. I was very happy with their results!

Friday, I completed JA at Stevenson Elementary School in a 5th grade class. It was great! She asked me to return next year.

Also, I received the nicest surprise. The students all gave me thank you notes and Mrs. Smith gave me a rose plant. It was a great experience and the surprise was wonderful.

Diana Lewis

My class and I are getting along great. It's a welcome break from work and I look forward to it all week. My teacher is great. I've enjoying working with her and look forward to next year.

I will give lesson 3 tomorrow. I've never done anything like this before and I am having a great time. I have learned so much about the school and how it works. It's been a really good experience.

It was so much fun to interact with the class and you get such positive feedback while you are there that you're charged for the rest of the day!

I am really enjoying my second grade class at West Lincoln! This is my first year to be involved in JA and I am very impressed with the program. The guidebook explains the activities very well and the kit contains everything I need. I have held three sessions so far and the kids are really excited and interested in what they are learning.

I thoroughly enjoyed my teaching experience; the little kindergartners are so smart! They remembered the stories I read the prior week and almost all of them knew what coins I held up. They loved the stories and it amazed me how they really love to learn. All the girls and boys were happy to see me every week, and I was so glad to be there too! I had lots of hugs and kisses even from the boys my last day! Ms. Yontz was very helpful and let me take over the class as soon as I arrived and helped out when needed. It was both of our first year for JA. Thank you for giving me the opportunity to give back to the community. I will be very excited to teach again next year.
